

PROFESSIONAL SUMMARY

QA Engineer specializing in Performance Testing, with a strong foundation in the Software Testing Life Cycle (STLC) and hands-on experience with LoadRunner, Jira, and Excel. Knowledgeable in both manual and automation testing concepts, with a strong interest in non-functional testing, application performance, reliability, and scalability. Analytical and detail-oriented, with the ability to work effectively in fast-paced environments and collaborate with cross-functional teams. Committed to continuous learning and developing expertise in Performance Engineering and Quality Assurance.

EXPERIENCE

Quality Assurance Engineer (Performance Tester)

March 2026 – Now

Cognizant

- Developed and maintained performance test scripts using LoadRunner (Web HTTP/HTML & TruClient), executing load, stress, and endurance testing via LoadRunner Enterprise.
- Collaborated with stakeholders during requirement analysis to design realistic test scenarios, workloads, and performance acceptance criteria.
- Logged defects using Jira, performed smoke, sanity, and regression testing, and delivered performance analysis reports with optimization recommendations.
- Developed multiple VBA-based tools to streamline performance testing activities, automate repetitive tasks, and improve overall testing efficiency.

Software Development Intern

August 2025 – January 2026

Deloitte Consulting SEA

- Built a next-generation banking POC leveraging Micro Front-End architecture with Atomic Design UI, creating 20+ reusable UI components, enhancing modularity, scalability, and UI consistency.
- Implemented analytics and structured error handling to track user journeys and clearly separate user-facing and system-level errors.
- Developed and validated microservices architecture using Java Spring Boot with Kafka for event-driven communication, including Idempotency ID handling for safe retries.
- Deployed an internal GenAI system on AWS EC2, using Docker for containerization of 8 application and Nginx as a reverse proxy for traffic routing and service management.

Software Developer

May 2023 – August 2023

CyberSphere Solution Sdn. Bhd

- Developed DietMate, an innovative food diary and diet management web application designed for two different user groups, focusing on usability, functionality, and responsive interface design.
- Coordinated task distribution and project timelines among team members to ensure smooth development progress.
- Delivered monthly progress reports and updates in team meetings to maintain alignment with project goals.

Web Developer Intern/Part Time

July 2022 – March 2023

FIFWAY System Sdn. Bhd.

- Contributed to the development of a port and vessel (kapal & pelabuhan) management administration system, with emphasis on system functionality, usability, and operational reliability.
- Participated in client-side meetings to discuss change request, feedback and assisted in user training sessions for 30+ participants in large-group, on-site environments to support system rollout and adoption.
- Authored 100+ pages of detailed user manuals, tailored to multiple user roles, to support end users during daily operations and post-deployment usage.

PROJECTS

[Nikoh.my](#) [NextJS, Supabase, JWT, Gemini, Vercel, Cloudflare, Resend]

- Developed a full-stack wedding vendor marketplace focused on the Malaysian market using Next.js and Supabase, enabling users to discover, compare, and connect with wedding service providers.
- Integrated Gemini AI to provide personalized wedding planning assistance, including budget estimation, guest list management, timeline planning, and vendor recommendations.
- Implemented secure authentication, vendor and customer management, and real-time database operations using Supabase to deliver a seamless user experience.
- Deployed and optimized the application on Vercel with Cloudflare to improve performance, scalability, and security, while integrating Resend for transactional emails such as account verification, inquiries, and booking notifications

[Warna Asmara](#) [NextJS, Supabase, Vercel, Cloudflare]

- Developed a full-stack business management platform and corporate website for a wedding service provider, serving as both an operational management system and a customer-facing digital presence.
- Built features to streamline business operations, including customer management, booking tracking, service inquiries, and centralized business data management.
- Opening solution and ideas to comply with the budget allocated by client, allowing win-win situation in the discussion and end-product.

Transaction Name Generator & Comparison Tool [Excel, VBA, Macro]

- Developed an Excel VBA-based QA tool to automate transaction naming and streamline comparison activities during performance testing.
- Automated repetitive data-processing tasks, improving consistency and reducing manual effort.
- Designed the tool to support faster preparation and validation of performance testing data.
- Applied problem-solving and automation concepts to improve efficiency within the testing workflow.

EDUCATION

Bachelor of Computer Science (Computer System & Networking) Universiti Malaysia Pahang Al-Sultan Abdullah, Pekan, Pahang	March 2023 – January 2026 CGPA: 3.45
Diploma of Computer Science Universiti Malaysia Pahang Al-Sultan Abdullah, Pekan, Pahang	August 2020 – January 2023 CGPA: 3.47

SKILLS

Software Testing & QA: Performance Testing, Non-Functional Testing, Load Testing, Functional Testing, Test Automation, STLC, LoadRunner, Jira, Excel/VBA, Postman
Programming & Development: React, TypeScript, NestJS, Java Spring Boot, NPM, Webpack, Git, C
Cloud & DevOps: VPS, AWS (EC2, IAM, S3), Docker, Nginx, CI/CD
Data & Analytics: NumPy, Scikit-learn, Machine Learning, SQL, Power BI, Looker Studio, GenAI

Honours & Activities

• AWS Certified AI Practitioner	January 2026
• FYPro (Final Year Project) Finalist Bronze Award by Computing Faculty UMPSA	July 2025
• Certified AI Fundamentals by IBM	March 2025
• Certified in CCNA: Enterprise Networking, Security, and Automation by CISCO	November 2024
• Anugerah Pencapaian Cemerlang Kategori Universiti by MOHE-MDEC GOT	July 2024
